SKYLAR VALERIO

Web Developer & Designer

About Me

My name is Skylar and I'm currently a student at Full Sail University, majoring in Web Development + Design. I have a lot of ambition and a high work ethic-- even in my free time, I'm coming up with new ideas for projects and looking forward to the future.

I love coding, drawing and exploring. I'm a quick learner and can easily adapt to any environment, although I enjoy being busy. I'm very good at managing my time. I'm interested in cybersecurity and database managements.
